GM SAL Global B support	Support for 2020 Corvette	✓	✓	✓	✓	✓

NOTE: Bartec USA remains committed to maintaining sensor coverage on major aftermarket sensors.

Multiple Software Types

In order to better manage the available aftermarket sensor coverage, this release will have multiple software types for the Tech400SD, 500, and PRO-SERIES tools. This multi-software approach will keep your Bartec tools up to date with the major aftermarket sensor suppliers, and with the Tech400SD being extend through 2021 [with an active software license], you will be able to use the tools longer!

Tech500/300PRO/400PRO: Required Software Type – Based on Sensors in use at your store/company

Software Type	TPMS REPLACEMENT SENSOR TYPES											
	Bartec RITE-SESENSOR	IntelliSens UVS	Schrader EZ-sensor	IntelliSens ECS	REDI-Sensor	Dill 5001/5002	PDQ TPMS	JSP Steelman Select	Dynamic Pro-Select	Alligator Sens.it	QWIK	Orange
General Release	X	X	X	X	X	X	X	X	X	X		
Balkamp /NAPA	X		X		X						X	X

Tech400SD: Required Software Type – Based on Sensors in use at your store/company
